ShenYang LiaoNing · (86)156 0402 4346

Baifeng1991321@gmail.com · <https://www.linkedin.com/in/steve-feng-301143402>

With over 10 years of experience leading website design and development projects, I specialize in translating user requirements into high-quality, scalable solutions. My expertise spans coding, UI/UX design, and prototyping, with a strong focus on delivering clean, maintainable, and secure code. I am committed to achieving cross-platform compatibility while consistently meeting—and often exceeding—client expectations.

EXPERIENCE

2022.5 –

GAWURA SCHOOLS, CONCISE.DIGITAL.CO

Gawura was established in 2007 by St Andrew's Cathedral School in response to systemic underachievement and the clear disparity in educational outcomes of Indigenous and non-Indigenous Australians.

Tech stack: Wordpress, PHP, Laravel, MySQL, Scss, SASS

<https://sacs.concisedigital.dev/gawura/>

2022.4 –

ATHLETICA,

Athletica is a mobile-first personal training platform for coaches and clients.

Trainers manage clients, scheduling, workouts, benchmarks, programs, session notes, and video feedback; clients log workouts, view programs, and upload videos.

Tech stack: Ionic Framework, React.js, Capacitor, Stripe, Firebase, Cloud Functions, Twilio, SMTP/Nodemailer, Stripe Connect + Checkout, PDFKit, Vitest + Testing

2022.6 – 2024.8

TATTOO STUDIO PRO, ZADIE STUDIO.CO

Part of a creative team specializing in motion graphics, animation, and high-end design-driven post-production in Central Florida.

Contributed to the development of Tattoo Studio Pro, an all-in-one management platform for tattoo and body art businesses, streamlining workflows, client management, and financial operations.

Tech stack: Ionic, Angular, TypeScript, Firebase, Cloud Functions, Capacitor, Cordova.

<https://play.google.com/store/apps/details?id=com.tatstudioapp.forms&hl=en>

2022.11 – 2024.11

HER PLAN MOBILE, COPPER&VINE STUDIO.CO

Contributed to digital product development at Copper & Vine, a U.S.-based, minority- and women-owned agency focused on building scalable applications, AI solutions, and data-driven platforms to accelerate business growth.

Also supported the development of a resource platform that categorizes care into seven key areas and 25 subcategories, connecting users with relevant, state-specific support organizations.

Tech Stack: Ionic Framework, Typescript, React.js, Redux-Saga, Google Maps, TailwindCSS, HTML5, Capacitor, Cordova

<https://apps.apple.com/us/app/her-plan/id6446158990>

<https://play.google.com/store/apps/details?id=com.mobile.herplan>

2021.7 – 2023.6

AVUXI, ONEMIND TECH.CO

Worked on AVUXI's TopPlace™, a plug-and-play GeoPopularity engine that analyzes geo-tagged big data to identify popular areas within cities and neighborhoods. The platform processes complex geospatial data to provide actionable insights, enabling OTAs and metasearch platforms to improve conversions and increase booking value through seamless integration.

2020.8 – 2024.1

HRN BACKEND, ZOAR TECH.CO

Worked with Zoar Technology, a boutique agency specializing in mobile app development for startups and small businesses. Contributed to building scalable solutions while supporting fast-paced environments and helping clients navigate product development under tight timelines.

Tech Stack: Node.js, Express, Cloud functions, Cloud Tasks, Cloud Schedule

2020.11 – 2024.12

JEFFREY, THEKLOSET, CLAIMS WEB APP, FIN DIGITAL

Contributed to digital product development at FIN Digital, focusing on AI, mobile applications, bots, and IoT solutions. Supported projects ranging from early-stage startups to Fortune 500 companies, delivering innovative technologies to enhance user engagement and drive digital transformation.

Tech Stack: Ionic Framework, Typescript, Angular, Capacitor, Cloud Functions, Firebase, Express, React.js, Tailwind.css

<https://apps.apple.com/us/app/the-kloset/id1549271412>

<https://claims-calculator-94cad.web.app/>

2021.12 – 2023.12

ONEMIND WEBSITE, ONEMIND TECH.CO

Contributed to IoT and real-time intelligence solutions at OneMind Technologies, enabling data-driven operational decisions across infrastructure, smart cities, and large-scale projects.

Supported global deployments as part of Affluence Corporation, focusing on Edge Cloud, IoT, and 5G technologies.

2021.11 – 2022.1

RIAFOX MOBILE, WEB, RIAFOX.INC

Worked with Riafox, an agile digital agency delivering mobile apps, growth-driven websites, and digital marketing solutions. Helped transform complex requirements into user-friendly digital products, enabling businesses to improve efficiency, expand their online presence, and drive growth.

2020.11 – 2021.4

DINING CITY MOBILE, DININGCITY, ASIA

Contributed to the development of DiningCity, a leading online dining platform across Greater China and Southeast Asia. Supported restaurant discovery, booking features, and large-scale dining events, collaborating with top restaurants and lifestyle brands across multiple major cities.

Tech Stack: Ionic Framework, Cordova, Angular, Typescript

EDUCATION

OCT 2008

BACHELOR'S DEGREE, COMPUTER SOFTWARE ENGINEERING

SKILLS

- Frontend & Mobile Development (Ionic, Angular, TypeScript, React-Native, Flutter, FlutterFlow)
- Cross-Platform App Development (Capacitor, Cordova)
- Secure Coding & Best Practices
- AI Integration & Intelligent Features (APIs, automation, data-driven solutions)
- Backend & Cloud Services (Firebase, Cloud Functions, Express, Node.js)
- UI/UX Design & Prototyping
- REST API Integration & Third-Party Services
- Performance Optimization & Debugging
- Agile Development & Team Collaboration

ACTIVITIES

Actively engaged in continuous learning and staying current with modern web and mobile technologies, including Ionic, Angular, and cloud-based architectures. Contribute to collaborative development environments, sharing knowledge and supporting team growth. Interested in UI/UX improvements, performance optimization, and building scalable digital solutions.

Passionate about exploring emerging technologies such as AI and IoT, and applying them to real-world applications. Enjoy mentoring, problem-solving, and contributing to projects that deliver meaningful user impact.
