

# Company Website Development – Project Details

Hi, thank you for your interest.

Let me give you more details about the project and our requirements.

## About the Company

We are Sutherland Global Services, a US-based company that provides business process services, digital solutions, and customer support for clients worldwide.

## Project Overview

We need a professional company website that presents our services and allows potential clients to learn about our business and contact us easily.

## Pages Needed

- 1 Home Page
- 2 About Us
- 3 Services
- 4 Careers / Jobs
- 5 Contact Us

## Features

- 1 Modern and professional design
- 2 Fully responsive (mobile, tablet, desktop)
- 3 Fast loading and optimized performance
- 4 Contact form for inquiries
- 5 Social media links
- 6 Basic SEO setup
- 7 Secure hosting setup

## **Technical Preferences**

You can use modern technologies such as HTML, CSS, JavaScript, React, Next.js, or a CMS like WordPress if you prefer.

## **Expected Outcome**

A fully functional, professional website that is deployed online and ready for users.

## **Additional Information Requested**

- 1 Your portfolio or previous work
- 2 Your estimated timeline
- 3 Technologies you recommend for this project
